

Patrick M. Webb, P.E.

Pat Webb is a licensed professional engineer managing the Project Development Section of the Pennsylvania Department of Environmental Protection, Bureau of Abandoned Mine Reclamation (PA DEP-BAMR) Cambria District Office. Pat is responsible to ensure that staff comply with the National Environmental Policy Act (NEPA) in achieving the Office of Surface Mining Reclamation and Enforcement (OSMRE) Authorization to Proceed (ATP) for health and safety OSM projects. Pat is also responsible for the review and issuance of Pennsylvania Chapter 102 Erosion and Sedimentation Control permits and Chapter 105 Water Encroachment/Wetland Mitigation permits. In addition, he is also an instructor for OSMRE's National Technical Training Program (NTTP) for the AML Realty and AML Dangerous Highwall Workshop classes. Pat graduated from the University of Pittsburgh at Johnstown with a B.S. Degree in Civil Engineering Technology. He was previously employed by the Navy Petroleum Office in Fort Belvoir, Virginia, for approximately 1 year; by the Pennsylvania Department of Transportation for 7 years; and has worked for PA DEP-BAMR in the abandoned mine land program for the past 12 years.
